

Vaccination Info for Buncombe County

Go to buncombecounty.org and click on **Covid Vaccinations – Sign up for the waiting list**. This will provide an option to sign up as either *65 or older* or *healthcare worker*. If calling by phone suits you better than using the internet, call 828-250-5000. Provide your contact info for a call back. If their call back misses you twice, you will be placed the bottom of the list, so be sure it's a number for a phone you always have close at hand!

2nd Doses: The Buncombe County site provides an obvious link to click for second dose info.

By the way, if you want to receive emergency text messages from Buncombe County, you can text **BCAlert** to 888-777 and you'll get a variety of alert messages, not just those about the vaccine. If you choose to use this text number and have feedback on whether it's useful or not, let Jim Haaga know. (Call Jim at 828-284-4124.)
