

Vaccination Info for Madison County

Go to *madisoncountyhealth.org*. If you are 65 or over, click a reservation spot for filling in your contact info. You'll receive a call that confirms you are on the **Covid Vaccine Call Back List**. (You may contact them by phone rather than internet: 828-649-0755.)

Your information must be correct! Provide a phone number you can access quickly— if their call back to you receives no response after calling TWICE, you will be placed at the end of the list. When you are contacted with an appointment for the shot, ask which location you're assigned to. Be patient, their call back may not come for a week or two. In the meantime, keep masking, distancing, and washing your hands.

2nd Doses: After your first dose, a call will come automatically to schedule the second dose. That call might come four weeks later for the Moderna vaccine and three weeks later for the Pfizer vaccine. If that call seems delayed, don't be anxious. There's a broad window of time in which to get the second dose. Be sure to get that second dose when it's offered!
